PRINCE ALBERT, JULY 30 1895

Ex-President Harrison gravely announces that he is not opposed to women riding on bicycles. He is diplomatically reticent on the bloomer issue, however. Public men with presidential aspirations in the States have to be careful in dealing with such great issues.

The proposal to forbid the publication and sale of Sunday newspapers has failed as an amendment to the Criminal Code, as it failed when introduced as a separate bill. Whatever disguises Mr. Charlton's legislative bantings are given his bad luck follows them to an early grave.

Peru and Bolivia, instead of starting internal revolutions, are diversifying the news from South America by threatening to go to war with each other. When the reign of universal peace comes to the earth, the freedom loving republics of the Western continent will be the last to note that the fashion has changed.

Mr. Henry M. Stanley has won a seat in Parliament for Lambeth. The African route led to a variety of distinctions in his case.

At the great Christian Endeavor convention at Boston it was announced that during the past year 7,750 new societies have been organized. A fair share of the increase is also credited to Canada. If the Endeavor movement is shooting its roots downward as rapidly as it is spreading its branches upward, it will be a remarkable development of religious energy in more ways than one. A few years more of such a rate of progress and its societies will represent the greatest factor in the church's work.

Among the victors in the British elections is the Marquis of Lorne, who has been elected for South Manchester as a Unionist. There are many in Canada who have kindly thoughts of our old Governor-General, and they will be pleased to see him successful in an attempt to enter a field for the work of which he possesses many qualifications.

The Irish Dairy Farmers' association is arranging for a visit of its members to Canada. This is at once a tribute to Canada's position as a dairy country and a promise of probable激烈 competition for Canadian factorymen in the British market. The Irishmen are coming out to learn, and because they know they can learn, and are quite likely to learn.

The latest from Newfoundland is that the cod fishery is the best for thirty years. It would be interesting to have an expert opinion as to whether this is not partially due to the work of Mr. Neilson, the dismissed fishery commissioner, who gave much attention to the artificial propagation of the cod. If it is, the Newfoundlanders will get the benefit of his skill after they have cut off his pay.

The Pioneer Press, of St. Paul, expects the demand of the Minnesota and Dakota harvest to afford early employment to the workless people in its locality. Though there are a good many increases of wages being announced in connection with U.S. industry the demand for labor they imply does not seem to equal the supply. It was in the West the crisis began, and it looks as if the West would also be the last to get out of it.

Co's. Saunderson is given as authority for the statement that it is the Government's intention to abolish the Irish lord lieutenantship and establish a royal residence in Dublin. The idea of a royal residence at Balmoral greatly pleases the Scottish people, and there would be a great number in the sister kingdom who would be loyally moved by the Sovereign's presence at its old capital. It is a little doubtful though, if an emplacement of the Queen would satisfy the long cultivated longing in the Nation at least for Home Rule. The experiment would, though, be interesting, and would surely do good.

Prorogation of Parliament.

Parliament prorogued on Monday the Governor General delivering the following speech from the Throne:

Honorable gentleman of the Senate and gentlemen of the House of Commons. In bringing this session of the parliament to a conclusion, I have to congratulate you on the industry and zeal which have marked your labors. The necessary legislation having been passed, the treaty of commerce with France from which favorable commercial results may be expected, will as soon as ratified, be put into force by the Government. The negotiations with Newfoundland, to which reference was made at the opening of the session, I regret to say have not resulted in any agreement for the present. Therapy of the provincial legislature of Manitoba to the remedial order issued by my government on the 3rd of March last was considered to be of such a character as to justify a postponement of further action until next session. I am pleased to observe the grant of parliament in aid of the fund contributed by the Canadian people for the benefit of the family of the late Hon. Sir John Thompson. The amendments which have been made to the law relating to civic service will it is believed, result in an increased efficiency and economy. The legislation of the session will, I trust, lead to an improved administration of criminal law, to the advancement of commerce and the extension of railway and telegraphic communication.

Gentlemen of the House of Commons, I thank you for the liberal provision which you have made for the service for the current year.

Honorable gentlemen of the Senate and gentlemen of the House of Commons, in relieving you from your duties, I venture to express the hope that you will find among the people you represent a continuance of the prosperity which marked the opening year.

Every business man ought to read "Dolars and Sense," a money making book by Nath C. Fowler, Jr., the leading expert on business and advertising.

18 chapters illustrated with 100 plates, presenting every style of effective advertising with examples of reading notes, circulars and headlines. It tells the plain truth about advertisements and exposes ineffective methods. Any reader of THE TIMES who will send check, postal note or postage stamps to the value of twenty five cents to the Trade Company, Boston, Mass. will receive the book by prepaid mail.

The date for cutting hay on Government lands has been postponed till August 10th, no permit for cutting to be granted till that date. The reason for this postponement is that the hay will not be sufficiently ripe until about that date. Many of our farmers agree with the local agent in this action and say that too early cutting is ruining the crop.

The Whalen Oil Co., Port Arthur, will pay \$3.50 per gallon, spot cash, for Pure Skunk Oil. C.O.D.

Belleville, January 4th, 1894
Messrs. Dick & Co., Montreal

"Dicks Blood Purifier" is the best of all the condition powders I ever used. It makes a horse thrive and feel well, improves his coat and keeps him perfectly clean in the legs, no matter how long he stands in the stable! I gave half of the first box to a gentleman who had a fine trotting stallion that had swollen in the legs, and had scratches from being out of condition, and in a few days his legs were perfectly clean, and the cracks healed rapidly.

Simply Awful

Worst Case of Scrofula the Doctors Ever Saw

Completely Cured by HOOD'S SARAPARILLA.

"When I was 4 or 5 years old I had a sore on the middle finger of my left hand, which got so bad that the doctors cut the finger off, and later took off more than half my hand. Then the sores broke out on my arm, nearly destroying the sight of one eye, also on my right arm. Doctors said it was the

Worst Case of Scrofula

they ever saw. It was simply awful! Five years ago I began to take Hood's Saraparilla. Grandpa found that the sores were beginning to heal. I said to him, 'Dad, I have ten dollars, can I have it? Just think of what return I get for that investment!' A short time ago I had a sore on my arm again, nearly destroying the sight of one eye, also on my right arm. Doctors said it was the

LITTLE BOOKS.—Cotton Mather said that since he had given away many little books, God had given to him many great books. Great books have their value, but little books are far more important for common use; and while students may need the great books, the people need the little ones. Busy men and women have no time for long stories. All the books of the Bible, as written, were little books.

Thousands of people who cannot read large volumes would gladly read brief pointed tracts and pamphlets. Persons interested in scattering "small books on great subjects," will do well to examine the different numbers of the Anti-Infidel Library, published by H. L. Hastings, 47 Cornhill, Boston.

Most of them are 5 or 10 cents pamphlets, in readable type, but so packed with facts that they contain as much information as one would often find in a book costing a dollar. The circulation of some of these publications has been enormous, nearly thirty tons of a single one of these little tracts having been printed. We do not often see "third million" on the title of any publication, but persons who are curious can find it by sending five cents to H. L. Hastings, Boston Mass., for a copy of the pamphlet "Will the Old Book Stand?" or by sending twenty-five cents for an assortments package of Anti-Infidel tracts.

Frank Lightfoot, of Winnipeg, buyer for Jas. McMillan & Co., fur, wool and hide dealers of Minneapolis, Minn., arrived here on Saturday evening and is staying at the Queen's. He expects to take out with him a couple car loads of goods for his firm.

Mr. T. Patterson, nephew of Mayor Davis and a former resident of this place, arrived here on a visit to relatives. Mr. Patterson left here in '89 and has been engaged in the flour mill business at Worcester, Mass. He finds a great change in the appearance of the town since he resided here.

Mr. Naylor, a retired farmer from the neighborhood of Lindsay, is here a guest of the Royal Hotel. Mr. Naylor is much surprised at the appearance and size of the town. He thinks it is the prettiest town site he has yet seen and prophesies a great future for it.

Contractor Hurd is getting along rapidly—considering the weather—with the addition to the Central school building. Harry Peard, who is doing the mason work, has the foundation completed and made a good start on the brickwork. He is making a good piece of work and doing the job in a workmanlike manner.

We have just received a new price list from Jas. McMillan & Co., Inc., 200-212 First Ave. North, Minn., the largest hide and fur dealers in the Northwest, and it can be referred to at this office at any time. Their advertisement which opened at that place yesterday morning.

LATEST NEWS BY WIRE.

Down in the Deep

The Italian steamers *Ortegia* and *Maria P.* collided off Isla Del Pinto at the entrance of Gulf of Genoa to-day. The latter sank and 138 passengers were drowned.

Over a Precipice

Four young men, named Francis Provost, Paul Cote, J. Berthiaume and J. Caron, started to descend the steep slope at Montmorency Falls, to fish. Cote slipped and fell a distance of fifty feet, and sustained fatal injuries. Caron and Berthiaume started to assist him, when Provost, who had been drinking, threw off his coat and hat and leaped over the precipice, landing on the rocks, 200 feet below. His body was terribly mangled, and death must have been instantaneous. Cote cannot recover from his injuries.

Burned to Death

A child aged three years, daughter of Alfred Thibault, accountant of the Michelin and Ontario Navigation Company, Quebec, has just died under very painful circumstances. The little girl, had unobserved got possession of some matches, which she ignited and set fire to her clothing, and was so badly burned that death ended her sufferings.

Swallow of Sight

A telegram has just been received announcing the deaths of four persons who recently left Blackriver Falls, Wis., to seek homes in Indian Territory. Last spring, John McCollum sold his farm in Wisconsin, packed up part of his worldly possessions and started with ten horses and covered wagons for the Indian territory. He had with him three grown up sons, leaving his wife and five small children until he could get located. The report is that while camped on the banks of a stream in Missouri, there was a cloud burst, and McCollum and his sons, wagons, teams and everything were washed into the stream and lost. It will be a severe loss to Mrs. McCollum, as he took with him all the money they possessed.

Minnesota Cyclone

A pioneer Press special from Deer Creek, Minn., says a regular Kansas cyclone has passed through that village. It originated one mile northwest of the town and travelled south west, leveling all grain and buildings in its track. Baker's large store building was leveled to the ground and its contents strewn over the country. Pulver's hotel, just east, as well as two residences were all leveled. John P. Hompe's store was moved several feet from its foundation and his goods badly shaken up. The largest store building across the street was so badly wrecked that it is worthless. Crops of all kinds were taken off as clean as though cut by a reaper. A number of persons were hurt and two fatally.

Conspiracy Case

Chilliwack has a case somewhat similar to the Farr case. A. W. Presley, hired two young men, Foster and McNally, to burn his store. Presley suspected Foster and told McNally to drug and burn him in the building. McNally "funked" and told the police. If he had set the store on fire a woman and several children would have certainly been burned to death. Presley was arrested, and tried twice to kill himself, but is now safe in jail.

Montreal Fire Bugs

Andrew Boyd, of the late firm of Boyd, Gilles & Co., wholesale stationers, who is now on his way to Liverpool on the steamer Mariposa, will be brought back to Canada at the instance of Crown Prosecutor Quinn. He is wanted by the authorities in connection with the trial of Charles Jenkins and John Hayes, on a charge of incendiarism. The destruction by fire of the above named firm's warehouse a few weeks ago gave the clue to the detectives in running down the fire bugs. It is reported that Jenkins will turn Queen's evidence. The police have failed to establish any connection between the men arrested and New York fire bugs.

Reduction Works Sold

More English capital for the Lake of the Woods has been secured. The Rat Portage reduction works and about eight mining locations have just been purchased by E. Bruszwitz, of London, England. It is the intention to equip the reduction works at once, and also to construct extensive developments on mining locations purchased. The sale was negotiated by Mr. A. M. Hay, and R. H. Alan.

Giving up the Duke dom

The Memorial Diplomatic announces that the Duke of Saxe-Coburg and Gotha will resign the dukedom in October next.

The Whalen Oil Co., Port Arthur, will pay \$3.50 per gallon, spot cash, for Pure Skunk Oil. C.O.D.

We have just received a new price list from Jas. McMillan & Co., Inc., 200-212 First Ave. North, Minn., the largest hide and fur dealers in the Northwest, and it can be referred to at this office at any time. Their advertisement appears regularly in THE TIMES.

Painless and delightful to use, relieves instantly, and permanently cures Catarrh, Hay Fever, Cold, Headache, Sore Throat, Tonsillitis and Deafness. 50 cents. At J. G. White & Co.

The "Rural Canadian" continues to be the most practical paper for the all round farmer to read. It has made a decided "hit" in securing the sole right for Canada of "The Farmer's New Guide," a well bound and handsomely illustrated volume of 778 pp., published at \$2.50 and not \$1 at a lower price except in connection with the "Rural." Every farmer should have the Guide and "Rural." Both sent to any address on receipt of \$2.50.

LITTLE BOOKS.—Cotton Mather said that since he had given away many little books, God had given to him many great books. Great books have their value, but little books are far more important for common use; and while students may need the great books, the people need the little ones. Busy men and women have no time for long stories. All the books of the Bible, as written, were little books. Thousands of people who cannot read large volumes would gladly read brief pointed tracts and pamphlets. Persons interested in scattering "small books on great subjects," will do well to examine the different numbers of the Anti-Infidel Library, published by H. L. Hastings, 47 Cornhill, Boston.

Most of them are 5 or 10 cents pamphlets, in readable type, but so packed with facts that they contain as much information as one would often find in a book costing a dollar. The circulation of some of these publications has been enormous, nearly sixty tons of a single one of these little tracts having been printed. We do not often see "third million" on the title of any publication, but persons who are curious can find it by sending five cents to H. L. Hastings, Boston Mass., for a copy of the pamphlet "Will the Old Book Stand?" or by sending twenty-five cents for an assorted package of Anti-Infidel tracts.

Pipes, Cigars and Cigarettes, imported and domestic at G. W. Baker's. Heart Disease relieved in thirty minutes.—All cases of organic or sympathetic heart disease relieved in 30 minutes and quickly cured, by Dr. Agnew's Cure for the Heart. One dose convinces. Sold by J. G. White & Co.

The August number of the Delinquent is called the midsummer number and contains a large variety of interesting matter suitable for the season. Ladies who have deferred completing their summer wardrobes will be particularly pleased with this number, for the styles were never more dainty and appropriate. A special article is devoted to pressing for stout ladies, and another to bathing and swimming, with illustrations of the latest fashion in swimming costumes. Mrs. Rogers A. Poyar's article on the etiquette of letterwriting bears the stamp of authority and will be helpful to every one who reads it; and the part on Art needlework in the employment series will direct the attention of many women at a means of livelihood. The Ontario Ladies College, Whitby, Ont. is interestingly described by an ex-graduate, the popular Kindergarten series is continued by Mrs. Sara Miller Kirby, and Harriet Keith Forber contributes an artistic paper in the series on burnt work. There is a very practical paper on cleaning and renovating lace, feathers and gloves, and a variety of useful information is given in the monthly talk around the tea table. The housekeeper will find some new recipes on sensible cooking, and much that will help to make housework easier in things the housewife should know. There is also an excellent article on the newest books and others on floral work for August and the relations of mother and son, new designs are illustrated and described in knitting, teting, lace making, etc. Subscription price of the Delinquent \$1.00 per year, 15c. per single copy. Address the Delinquent Publishing Co. of Toronto, Ltd., 33 Richmond St. West, Toronto, Ont.

The greatest papers in Great Britain and the United States freely acknowledge the wonderful merit of the *Family Herald and Weekly Star*, Montreal. The *Family Herald* is a great newspaper and a great family paper, but it is more than that, it is one of the greatest authorities in the world on cheese, butter, general dairying, and general farming. How a progressive, up-to-date farmer can do without the *Family Herald and Weekly Star* of Montreal is hard, indeed, to understand.

Local and Toy Blowing salesmen to handle the Hardy Canadian Grower Stock Company, and their numerous branches, our Nurseries are the largest in the Dominion, over 700 acres. No nursery in the world can boast of such a large number of varieties to choose from, or part or whole agents. Write us.

STONES & WELLINGTON, (Head office Toronto, Ont. The only Nursery in Canada having testing orchards)

The Wild Flowers of Canada

This Dominion will soon be covered with wild flowers as with a carpet. It is interesting to hear that splendid prizes are to be given to those who know the Wild Flowers of Canada by name, form and color. European and American judges of floral nature say Canadians should be so carried away with the beauty of their own native bloom as to ensure an acquaintance with the Wild Flowers of Canada by every man, woman, boy and girl in the Dominion.

In this connection the Montreal "Star" is coming in for much praise for a splendid work it is publishing entitled "The Wild Flowers of Canada," in portfolio form, sixteen flowers in each portfolio, three hundred plates in all, natural colors and natural size, the whole forming an invaluable treasure for the library. For a limited time these valuable portfolios may be obtained from the Montreal "Star" or local newspaper at fifteen cents each. Amazing cheap.

The Manitoba Free Press in speaking of the Uxbridge Piano say: "They are genuine works of art, and reflect the highest credit upon the firm which has produced them. The old style of upright piano is thrown into the shade. The Uxbridge Piano has a continuous back which will be appreciated in the playing of duets; sitting down to the piano the performer touches a lever and the keyboard is uncovered, and the hinge of the lid turn out of sight, and the instrument presents the same artistic appearance when open as when shut. The Organs manufactured by the Uxbridge company have been in use for over twenty years and require no special description as they are so well-known and liked in the homes of the thousands over the whole world. However, the company is manufacturing a six Oct. Organ in Piano case which is having a wonderful sale. The Piano made by the Uxbridge Piano Co. are a credit to Canadian enterprise, being equal in tone, durability and finish to the best American.
